### 3.00pm AFTERNOON TEA AND NETWORKING

4.00pm Close

**Crocodile Gold** (TSX:CRK) is a Canadian mining company operating the Cosmo Gold Mine in the Northern Territory, Australia and the Fosterville Gold Mine and Stawell Gold Mine in the State of Victoria, Australia.

**Incremental Oil and Gas Ltd** (ASX-IOG) is an independent oil and gas production company focused on development, exploitation, acquisition and production of natural gas and crude oil in the United States.

**UIL Energy** (ASX-UIL) has assembled a portfolio of prospective early stage conventional and unconventional oil and gas exploration permits in Western Australia. UIL Energy is looking to expand the current portfolio by targeting high potential opportunities within Australia.

**Metro Mining** (ASX-MMI) (formerly MetroCoal) a developing multi-commodity Company. After taking over Cape Alumina, Metro is set to commence mining Cape's lucrative Bauxite resource in the world-recognised bauxite area of Cape York and retain their considerable coal assets in the Surat Basin until the coal market improves.

**Orion Gold NL** (ASX: ORN) is focused on acquiring, exploring and developing large tenement holdings or regional scale mineral opportunities in world-class mineral provinces. The Company has acquired a substantial tenement holding in the Albany-Fraser Belt, host to Australia's two most significant discoveries of the last decade (the Tropicana Gold Deposit and the Nova Nickel-Copper-Cobalt Deposit).

**Minotaur Exploration Ltd** (ASX-MEP) has extensive minerals exploration tenements in Australia, specialising in the application of innovative geophysical techniques to locate virgin mineralisation deep below the surface. The directors and management of Minotaur each have over 30 years of experience and are eminently qualified in their respective fields of expertise.

**Castle Minerals** (ASX-CDT) is an exploration and development company focusing on gold and has since acquired the rights to five mineral projects in Ghana, West Africa including Akoko, Antubia, Bondaye, Opon Mansi (application) and WA covering more than 11,000km<sup>2</sup>. Castle's corporate objectives are exploration and development of its projects.

**Cannindah Resources Limited** is an exploration and resource development company with a focus on gold and copper. Currently, PMQ holds three main exploration projects in Australia. These projects include Mount Cannindah.

**Shale Energy Limited** (ASX-SLL) has an IPO open for subscription to investors for the raising of A\$3.5m. The Company has been able to develop the key relationships in the US oil and gas sector since 2008.

**Anteo Technologies Pty Ltd** is a wholly owned subsidiary of the Australian biotechnology company Anteo Diagnostics Limited (ASX-ADO). The company delivers cutting-edge solutions by creating nanometer thin molecular glues that bind all sorts of materials. Anteo is a pioneer in the relatively new science field: Supramolecular Chemistry.
