18 June 2015

Marriott Resort & Spa, Surfers Paradise, Queensland

PROGRAMME**Thursday 18 June 2015****MORNING SESSION**

- 9.20am **Opening Address** Stewart McDonald - Managing Director *Vertical Events*
- 9.30am **Collaborate Corporation Ltd** Chris Noone - Chief Executive Officer **CL8**
Collaborate Corporation disrupts traditional business models by enabling owners and renters to transact directly with each other, monetising assets such as cars, caravans and commercial equipment that would otherwise sit idle. The industry Collaborate operate in is called 'collaborative consumption', 'peer-to-peer' or the 'sharing economy'.
- 9.50am **BPS Technology Pty Ltd** Trevor Dietz - Chief Executive Officer **BPS**
BPS Technology specialises in driving customers to merchants through its trading and payments platforms. BPS operates the world's largest trade exchange Bartercard and provides on-demand cloud based software as a Service "SaaS" payment systems for both the alternative digital and cash economies through the Tess and Bucqi platforms.
- 10.10am **Shoply Ltd** Simon Crean - Chief Executive Officer **SHP**
Shoply is an online shopping company that sells highly sought after brands and products to those seeking the convenience and value offered by shopping online. Shoply currently owns online retail stores that sell consumer technology (estore.com.au), office technology (warcom.com.au), home wares and kitchenware (yourhomedepot.com.au) and baby products (wowbaby.com.au). Growth is centred on the organic development of existing stores and the acquisition of new stores in attractive online shopping categories using a versatile, robust and scalable platform.
- 10.30am **Crowd Mobile Pty Ltd** Domenic Carosa - Chairman **CM8**
Crowd Mobile is a Profitable mobile entertainment and crowd sourced micro job business that operates in Australia, NZ, UK, Ireland, Germany, Austria, Belgium, Portugal, Spain, The Netherlands, Switzerland, Italy, Poland and Norway. Crowd Mobile operates in the "SMS & App" market, providing services to users through their mobile phone and tablet devices. The Crowd Mobile website is located at www.CrowdMobile.com

10.50am Morning Tea

- 11.30am **Universal BioSensors** Paul Wright - Chief Executive Officer **UBI**
Universal Biosensors (ASX:UBI) is a specialist medical diagnostics company developing and manufacturing test systems for point-of-care (POC) medical professionals and home use. UBI's core technology is a disposable, multi-layer test strip, which uses its proprietary electrochemical sensor to rapidly and accurately measure biomarkers in the blood. The first product developed by UBI with LifeScan (a Johnson & Johnson company) is a blood glucose measurement system that is on the market and generating rapidly growing revenues for UBI. UBI is now extending its platform technology to new POC testing applications.
- 11.50am **Altech Chemicals Ltd** Iggy Tan - Managing Director **ATC**
Altech Chemicals is aiming to become one of the world's leading suppliers of 99.99% (4N) high purity alumina (HPA) (Al₂O₃). HPA is a high-value product because it is the major source material for scratch-resistant artificial sapphire glass which is used to produce a range of high performance electronic applications including LEDs, semi-conductors, phosphor display screens, as well as smartphones and tablet devices.
- 12.10pm **Innate Immunotherapeutics Ltd** Simon Wilkinson - Chief Executive Officer **IIL**
Innate Immunotherapeutics is an Australian biotechnology company with an exciting technology that targets the human innate immune system. The company is currently conducting a Phase 2B efficacy trial of a drug candidate to treat secondary progressive multiple sclerosis. Innate has completed successful Phase 1B/2A trials which have demonstrated an acceptable safety and tolerability profile. In addition to these trial results, patients in New Zealand have been receiving treatment for up to six years under a compassionate use program, with patients reporting significant and sustained improvement in a range of their MS-related signs and symptoms.
- 12.30pm **Cogstate Ltd** Brad O'Connor - Chief Executive Officer **CGS**
Cogstate is a leading cognitive science company focused on optimising the measurement of cognition to guide decision-making. Cogstate commercialises rapid, reliable, and highly sensitive computerised cognitive tests for clinical trials, academic research and healthcare. Delivering solutions spanning the continuum from study design to final statistical analysis, Cogstate's latest Clinical Trials offering, Precision Recruitment is a powerful solution based on an online pre-screening portal to accelerate the identification and engagement of qualified candidates for clinical trials in high-need indications such as Alzheimer's disease.

12.50pm Lunch

Gold Coast Investment SHOWCASE

18 June 2015

Marriott Resort & Spa, Surfers Paradise, Queensland

PROGRAMME

Thursday 18 June 2015

AFTERNOON SESSION

- 1.50pm **Anteo Diagnostics Ltd** Geoff Cumming - Chief Executive Officer **ADO**
 Anteo Technologies (ASX:ADO), a subsidiary of Anteo Diagnostics Limited, is transforming the way scientists work by providing new, powerful tools developed with their patented Mix&Go™ Activation Reagent that significantly advances traditional coupling methods, in turn, helping to improve medical devices and in-vitro diagnostics, leading to the faster detection of disease.
- 2.10pm **YPB Group Ltd** John Houston - CEO / Chairman **YPB**
 YPB Group is a leading worldwide solutions provider in brand protection, product authentication and anti-counterfeit technology listed on ASX in Australia and operating in China, USA, Australia and South East Asia. The company has developed innovative technologies that PROTECT and DETECT. YPB's Patented Tracer and scanner solutions PROTECT products from the risks of counterfeit and diversion.
- 2.30pm **Rent.com.au Ltd** Mark Woschnak - Managing Director **RNT**
 Rent.com.au Ltd operates Australia's leading website and mobile platform dedicated purely to rental property and creates the full rental marketplace which not only has agent listings but also targets the underserved non-agent landlord rental market. In Australia almost half of rental properties are not managed by property agents and this large market is still largely captured by print media which RNT aims to shift to online at www.rent.com.au.
- 2.50pm **St George Mining Ltd** John Prineas - Executive Chairman **SGQ**
 St George Mining is an exploration company whose flagship asset is the 100% owned East Laverton Property in the North-Eastern Goldfields region of WA. It covers an area that is prospective for nickel sulphide, VMS-style base metal and gold deposits and extends over 2,000 sq km encompassing three extensive ultramafic-greenstone belts with a total strike length of more than 130km with strong potential for the discovery of significant massive nickel sulphide deposits. St George has established a large pipeline of prospects that provides considerable exploration upside.

3.10pm **Afternoon Tea**

- 3.40pm **Central Petroleum Ltd** Richard Cottee - Managing Director **CTP**
 Central Petroleum is a leading NT onshore oil and gas producer with extensive exploration acreage. Production is centred on Palm Valley and Dingo for natural gas and Surprise for oil with Mereenie oil and gas field being acquired. Central will be a major beneficiary of the gas shortage in NSW and QLD if the government sponsored NT pipeline occurs (referred to as NEGL).
- 4.00pm **Sienna Cancer Diagnostics Ltd** Cliff Holloway - Chief Executive Officer
 Sienna Cancer Diagnostics Ltd. has developed an exciting new diagnostic reagent which detects a protein biomarker which is present in 90% of cancers. Sienna's first commercial product is available in the US which has been rapidly adopted to address the unmet needs in the detection of bladder cancer, including resolving inconclusive test results, and identifying early stage disease. In 2015/16 Sienna aims to grow revenue through sales expansion of the current reagent in the US, whilst further developing additional diagnostic product formats to address larger markets and addressing the unmet needs in the identification of other cancers.
- 4.20pm **Market Overview** Andrew Shearer - Senior Resources Analyst **PAC Partners**
