CHINA MINING 中国国际矿业大会

2 - 5 November 2013

Tianjin Meijiang International Convention & Exhibition Center

Hosted by the Ministry of Land Resources, Tianjin Municipal Government and China Mining Association, the 15th CHINA MINING Conference and Exhibition 2013 will be held at the Tianjin Meijiang Convention and Exhibition Center on November 2-5, 2013.

CHINA MINING Conference and Exhibition - one of the world's largest mineral investment, cooperation and trading platforms - covers the whole value chain, including geological surveying, exploration development, mining rights trading, mining investment & financing, smelting & processing, technique & equipment, mining services and many more. CHINA MINING plays a critical role in creating more communication and co-operation opportunities for domestic and international industry communities.

Since the first time CHINA MINING was held in 1999, the scope and influence has been extending every year. CHINA MINING Conference and Exhibition has now become an annual not-to-miss event and a platform for the world mining players. Last year's event has concluded with great success - 429 exhibitors and 6000 delegates from 57 countries joined CHINA MINING 2012.

CHINA MINING Conference and Exhibition consists of three parts - Conference, Exhibition and Coherent Events.

During the Conference, government officials, industry leaders and experts from both Chinese and foreign mining industries have in-depth mining dialogues on questions related to the mining industry. The topics cover Summits with Keynote session, Global Mining Development Forum, and several stream sessions, including Policies & Financing, Prospecting & Exploration, Country Investment, Mining Commodities as well as Mining Sustainability and others.

The Exhibition includes China Land & Resources Area, Mining Countries Area, General Mining Area and Special Construction Area. The coherent CHINA MINING Equipment Show, this time in the 8th year, is dedicated to the largest and most professional mining equipment show providing a trade platform for the equipment producers and buyers. Moreover, as the latest feature, CHINA MINING 2013 will again have special promotions for traders. CHINA MINING Exhibition provides unique business opportunities for mining exploration companies and all-related service providers.

The 8th CHINA MINING Awards Gala Dinner together with other coherent events, such as Signing Ceremony of project investments and Government Welcome Dinner, etc. provide outstanding networking opportunities for the participants.

For more information on how you can participate in this event please contact Doug Bowie on 61 8 9388 2222 or doug@verticalevents.com.au.

THE MINERS

Stories from the industry that drives modern Australia

Launched at Mining 2013 Resources Convention

The Miners ... stories from the industry that drives modern Australia by mining journalist Barry Avery is currently being printed, and will be available for distribution towards the end of September 2013.

The hard-bound, coffee-table style book contains more than 100,000 words and over 200 images and maps in its 200 pages.

The Australian mining industry has a great story to tell, one which is inextricably linked to the progress and development of modern Australia's status as one of the world's leading democracies. The Miners was born out of the belief, shared by many within this multi-faceted industry, that the role of mining in nation-building has over the years been substantially unacknowledged at best and, at worst, derided.

What The Miners hopes to do, quite simply, is tell some of the stories of challenge, risk, reward, failure, hopes and dreams through the voices of those in the industry from mining company managing directors and a broad spectrum of other stakeholders, including drillers, unionists, politicians and financiers.

The Miners is not a history book; neither does it offer saturation of coverage of every commodity and company; nor does it pretend to be a definitive work on the subject and it most certainly contains gaps and omissions which knowledgeable industry insiders might easily identify. It is a story of the industry told by the people who drive it, who have lived it, who dream it and create nation-building wealth through it.

Proceeds from The Miners will go to the Starlight Children's Foundation, which celebrates its 25th anniversary in Australia in 2013.

More information about The Miners, and a pre-order form, may be found at www.theminers.net.au
