# Australian Uranium Conference

The Australian Uranium Industry has consolidated within the past year and with a new Uranium mine operating along with trials and feasibility studies on new projects, it augurs well for the industry in the coming year.

With Australia a major force in the supply of the world's energy needs, the 6th Australian Uranium Conference will provide the venue for explorers, potential and actual miners of Uranium to meet with the investment community, along with the major buyers and sellers of the product.

It is Australia's Global Uranium Forum!

With over 600 in attendance in 2009 the 2010 event will be the most important and influential yet.

## **Technical and Government Presentations**

As part of the natural expansion of the Australian Uranium Conference, along with increased popularity of presentations from participating uranium exploration companies, the conference will now host a second auditorium to complement its original format. These presentations are timed for the pre-lunch and after lunch sessions of each day of the event.

The new 'Technical and Government forums' will look at all technical and land issues that would be prevalent for any explorer and 'hands on' member of the uranium industry.

Also, those interested in legislative requirements for exploring and mining would be well served by this auditorium.

## Conference Information

The conference will take place over two days on 21 and 22 July, 2010 at the Esplanade Hotel Fremantle and will include a 40 booth exhibition area. Sessions will commence at 8.40am on Wednesday 21 July with a keynote address, and will conclude at 5.30pm on Thursday 22 July 2010.

The exhibition area will be open to conference delegates throughout the conference. All lunches, morning and afternoon teas will also be served in this area.

Conference Drinks will be held for speakers, exhibitors and delegates on Wednesday 21 July 2010 - this is included as part of early bird and standard registrations.

### Registration

Early Bird Registration  
(expires on 20 June 2010):  
\$880.00 (inc. GST)

Standard Registration  
(applicable after 20 June 2010):

## Richard Sellers

Mr Sellers was appointed Director General of the Department of Mines and Petroleum in Western Australia in June 2009. He holds a Bachelor of Applied Science Biology, a Graduate Diploma in Education and Master of Public Policy and Management. Mr Sellers has extensive experience in natural resource management and the regulation and approval of the mineral and petroleum industry.

## Hon. Kon Vatskalis

Hon. Kon Vatskalis emigrated from Greece to Perth, Australia, in 1983 before completing his Bachelor's Degree in Environmental Health from the Western Australian Institute of Technology. He first took post as the Environmental Health Officer for the City of Wanneroo whilst completing his Graduate's Diploma in Environmental Science at Murdoch University. After relocating to Darwin, Northern Territory in 1993, Mr Vatskalis was elected as MLA for Casuarina in 2001 and re-elected in 2005.
